Do I have to pay for parking at the new location?

No, parking is free for the duration of your breast screening appointment. Dedicated spaces will be available for breast screening service-users. If you're unfamiliar with the area, please allow extra time to find the location.

Is it the same mobile unit I have been to before?

Yes, it is the same mobile unit that normally visits Newport. It uses the same equipment as our hospital departments, so your breast screening images will not be affected.

Will it impact how long it will take to get my breast screening results?

No, the location won't impact the timing for results. The mammographer will let you know when to expect your results by post.

The new site is approximately 2.8 miles (7-minute drive) from the previous location. We have worked to ensure it remains within the same community area.
